## CorteCros: Cortec's First Joint Venture Still Going Stronger Than Ever!

**CorteCros Distribution Center**

**Cortec® Case History #337**

**Cortec® Case History #312**

CorteCros Co. Ltd., Croatia was founded in 1998 as a joint venture between Crosco, Integrated Drilling & Well Services Co. Ltd., a member of INA Group, and Cortec® Corporation, USA. CorteCros is the Distributor for Cortec® in Croatia and South-Eastern Europe. They have offices located in Zagreb, Croatia and a distribution center in Kaštel Sućurac near Split, Croatia. This distribution center is also the customs clearing warehouse for all Cortec® products distributed in Europe. This joint venture was set up to expand the potential of Cortec's environmentally friendly corrosion control products and applications in the South East European market. Today CorteCros still provides these performance-enhancing solutions to serve the diverse needs of their customers.

Even through the latest economic downturn, Ivan Rogan, General Manager, who has been there from the beginning, is focused on the partnerships short and long term successes. He has and will remain totally vested in the continued effort to build on the strategic plan to provide Cortec® products, engineering, and application consulting to meet customer's needs to combat corrosion.

CorteCros provides to the Military, Oil and Gas, Refinery, and Construction industries; as well as EcoCortec® products to many industries for packaging processes. CorteCros is well equipped to provide you with a reliable supply of top-quality Cortec® corrosion solutions, technical support, and customer service.

Some of the products and services that CorteCros has provided have been documented in Cortec® Case Histories. Use the below links to read more about some of the projects CorteCros has supported.
